

# DX245NHD-7 DX235LC-7

# RAISE PROFITS, PRODUCTIVITY & FUEL EFFICIENCY

#### RELIABILITY

Reinforced castings and forged steel pivot points and reinforced heavy-duty arm and boom to withstand high-impact materials. Monoboom or articulated boom for added versatility. Improved hydraulic line routing to protect your investment and handle any application with success.

#### **VERSATILITY**

A new attachment mode, with a priority valve on the attachment, results in higher working efficiency when moving the arm and using the attachment at the same time. A specific tiltrotator mode, for more precision and less back pressure when high flow is required.

#### YOUR SAFETY IS OUR PRIORITY

Rear and right side cameras as standard, anti-slip steps and platforms, as well as guard rails on upper structure.

Optional: a 360° all-around view camera (AVM) can be linked with unique ultrasonic detection for maximum safety while working with people around.

Large side mirrors, 9 powerful LED work lights (4 additional lights possible as an option), travel alarm.

#### **PRODUCTIVITY**

State-of-the-art bucket and arm digging forces. Delivers higher productivity and reduced fuel consumption in an efficient and comfortable work environment.

#### UNIQUE HEAVY-DUTY UNDERCARRIAGE (DX245NHD-7 ONLY)

The DX245NHD-7 is designed for the most severe applications. Chains, rollers, sprocket, shoes and the chassis itself are oversized to increase lifetime in the most abrasive applications. In addition, this model has only 2.54 m transportation width to meet transport regulations.

#### **EXCELLENT STABILITY**

Both the DX245NHD-7 and the DX235LC-7 deliver remarkable stability and lifting performances.

#### **UNRIVALLED COMFORT**

One of the most spacious cabs in the market, with low noise & vibration levels and excellent all-round visibility. Thanks to the heating and even an optional cooling functionality of the premium seat and improved air ventilation in the DX245NHD-7 and DX235LC-7, you can focus on the job at hand in any situation.

# DX 245ma

#### **OPERATE AT EASE**

New Doosan Smart Touch screen, an easy to read and use 8" touch screen integrates all functions and settings of your machine in one place. Don't miss any important call thanks to the hands-free phone system. And forget fumbling with keyholes: unlock the door remotely, and start or stop the engine with the included Doosan Smart Key.

#### **ENGINE**

Exceptionally powerful – with high torque at low revs – the new Doosan engine combines reliability and low environmental impact. This Stage V compliant 6 cylinder engine delivers 129 kW at 1800 rpm.

# FULL CONTROL OVER FUEL CONSUMPTION

The latest evolution of the legendary Stage V Doosan DLo6P engine achieves greater fuel savings thanks to the 3<sup>rd</sup> generation of Smart Power Control (SPC3) Take full control over your fuel consumption with the settable engine shut off.

#### **ADVANCED FILTRATION**

Highest efficiency filters & cleaners remove water, dust & particles to protect your investment optimally.

#### **EASY MAINTENANCE**

Maintenance data directly available from control panel. Easy access to all filters from ground level. Cooling compartment equipped with fine mesh for the intake air, to protect coolers and minimize downtime.

# TOP PERFORMANCE AND FUEL EFFICIENCY

#### THE POWER TO RAISE PRODUCTIVITY

- The DX245NHD-7 and DX235LC-7 are equipped with the latest generation Doosan engine
- Stage V compliant, this engine boasts extremely low emissions because reducing our environmental impact is paramount to us
- Exhaust gases are purified by Selective Catalytic Reduction (SCR) technology, a Diesel Oxidation Catalyst (DOC) and a Diesel Particulate Filter (DPF)

#### **EFFICIENT FUEL MANAGEMENT**

- Choice of 4 power modes (Eco Standard Power Power Plus) and automatic Smart Power Control system for optimal power and reduced fuel consumption in all conditions
- Engine auto-shut-off: shuts down the engine after the machine has been idling for a specified time. The operator can set the delay before shut-off via the Doosan Smart Touch screen

#### **VARIABLE PRESSURE TURBOCHARGER**

Provides optimal air flow to the engine combustion chamber under all speed and load conditions, so that exhaust gas is cleaner and fuel economy is improved.

#### **SPC3 (3RD GENERATION OF SMART POWER CONTROL)**

2 systems (Variable Speed Control and Pump Torque Control) work together to improve efficiency while maintaining productivity. The system reduces the engine speed and adjusts the pump torque according to work conditions.

In your profession, you need equipment you can depend on. At Doosan, we put durability and reliability at the core of our machines' development. Our materials and structures undergo stringent testing for strength and resilience under the most extreme conditions.

# DESIGNED FOR LONG-TERM, ALL-ROUND, HEAVY-DUTY PERFORMANCE

#### **EXTRA-STRONG X CHASSIS**

Designed using finite element analysis and 3D computer simulation, the X shaped undercarriage ensures optimum structural integrity and durability.

#### **UNDERCARRIAGE DURABILITY**

The undercarriage is specially designed for heavy-duty applications, like mountains with rocky ground features. 3ot-class undercarriage components. Chains, rollers, sprocket, shoes and the chassis itself are oversized to increase lifetime in the most abrasive conditions.

- The chain is composed of sealed, self-lubricating links for long-term dependability. Chains and track rollers are lubricated for life
- For improved protection, alignment and performance, we propose as option a full-length track guard
- The track spring and idler are joined for long-lasting performance and easy maintenance
- Cast steel heavy-duty sprockets guarantee the highest resistance

#### STRENGTHENED BOOM AND ARM

During the development of our machines, we use intensive testing to calculate the best load distribution throughout the boom structure.

Combined with thicker material, this means that element fatigue is limited and both reliability and component life are increased. To better protect the base of the arm, reinforced bars have been added and the arm center and end boss have been strengthened.

#### **ADVANCED FILTRATION**

- Fuel filters and water separator: a filter-type high-performance water separator effectively captures moisture in the fuel, reducing impurities and helping minimize any fuel-related issues. Pre-filters and dual main filters as standard achieve a high degree of purity that minimizes fuel system failures.
- Cyclonic air pre-cleaner: air filter life and engine efficiency are directly related to the amount of debris ingested through the engine's air intake. Therefore, a cyclonic air pre-cleaner (as standard) is the first stage of an air intake system that prevents the majority of heavier-than-air particles from entering. Selfcleaning and maintenance-free, the system is able to expel all types of mixed debris, including mud, snow, rain, leaves, sawdust, chaff, etc.

#### PIN AND BUSHING ADVANCED TECHNOLOGY

Highly lubricated metal is used for the boom pivot to increase the component's lifetime and lengthen greasing intervals. The bucket pivot features EM (Enhanced Macrosurface) bushings. These have a tailored surface pattern and self-lubricating coating for optimized greasing and more efficient debris removal. Ultra-hard wear-resistant discs and bucket pivot polymer shims increase durability even more.

# OPERATING IN HIGH COMFORT

#### **BEST-IN-CLASS OPERATOR ENVIRONMENT**

The DX245NHD-7 and DX235LC-7 are designed to provide you with the best possible working conditions. The sophisticated state-ofthe-art ROPS cab is pressurized and ISO-certified for your safety. A high-quality heated seat (and even seat cooling available as an option) with air suspension provides maximum operator comfort.

#### **UNRIVALLED COMFORT**

Comfortably seated, you benefit from a clear all-round view of the work site and have easy access to several storage compartments. Pedals, joysticks and armrests have all been designed for operator comfort and efficiency. Noise and vibration levels are remarkably low, and the effectiveness of the air conditioning and automatic climate control has been increased significantly. These features allow you to continue working for hours on end without feeling tired.

Finally, thanks to the hands-free system, you won't miss any important call, and you'll stay available to your customers, as you operate the machine.

#### **CAB SUSPENSION**

The cab's suspension system (CabSus mount) dampens vibrations and provides outstanding protection against impact. This system absorbs shocks and vibrations much more effectively than a conventional silentblock suspension system.

#### **DOOSAN SMART TOUCH**

The wide 8" touchscreen provides easy scrolling through the different menus, including power settings and auxiliary hydraulics settings. It also allows you to connect a Bluetooth device or listen to your favorite radio station.

# 360° ALL-AROUND VIEW CAMERA (AVM) SYSTEM (OPTION)

The 360° all-around view camera (AVM) system gives you full view of the machine's surroundings.

The ergonomic controls, the easy-to-view color monitor, and Doosan Smart Touch place the machine firmly in your hands.

# TOTAL CONTROL IN ALL SIMPLICITY

#### **DYNAMIC POWER MANAGEMENT**

- Automatic travel speed range selection (slow/fast)
- Activating the power boost control system increases digging force by 10%
- A 1-touch deceleration button immediately reduces engine speed to low idle
- Auto-idling starts 4 seconds (adjustable) after all controls are returned to neutral – reducing fuel consumption and noise levels in the cab

#### **INTELLIGENT FLOATING BOOM MODE (OPTIONAL)**

The "intelligent floating boom" function allows the boom to move up and down freely according to the application:

- Hydraulic breaker setting: during boom down operation, the boom moves down freely under its own weight. The result is reduced shock and vibration and longer breaker service life
- Full float setting: during boom down selection, the boom is allowed to rise and fall as required while the bucket is drawn across the ground

#### **NEW FINE SWING FUNCTION**

Another new standard feature is the Fine Swing function. This function minimizes the shaking that a lifted object undergoes at the start or stop of the excavator's swing movement – increasing the safety of nearby workers and preventing damage caused by the object falling from the excavator. When Fine Swing activates, the overrun shuts off, allowing the DX245NHD-7 and and DX235LC-7 to smoothly reach maximum swing speed and removing the shock from the turn reversal at the moment of stopping - resulting in a smooth stop.

#### **4 WORK MODES AND 4 POWER MODES**

These modes deliver the needed power, according to your specific application, while minimizing fuel consumption:

- Work modes: 1-way mode, 2-way mode, Digging mode and Lifting mode
  With the 2-way mode, we now have a priority valve on the attachment line to increase the machine's productivity when using an attachment and moving the arm at the same time.
  A new mode is also available: dedicated for tilt rotator use, to maximize precision and minimize back pressure.
- Power modes: Power Plus mode, Power mode, Standard mode, Economy mode

#### **EXPERT FINGERTIP CONTROL**

- The new multi-function 8" Doosan Smart Touch screen displays all useful information in a visual and intuitive format.
- At a glance, you can check the machine's status and settings to achieve optimal efficiency.
- Doosan's unique jog shuttle switch gives you easy and precise control over all machine functions.
- Highly sensitive and low-effort joysticks enable you to work safely, smoothly and confidently.
- The proportional thumb switches on the joysticks can be mounted horizontally or vertically, as the operator prefers, for optimal control of hydraulic attachments.

# SIMPLE MAINTENANCE FOR MAXIMUM UPTIME

#### **MAINTENANCE ACCESS MADE SIMPLE**

- Large guard rails are installed along with anti-slip steps and plates, for safer, easier access to the whole upper structure.
- The air conditioning filter is placed on the side of the cab for easy access. The filter's cover can be locked and opened with a key.
- A battery cut-off switch makes it easy to disconnect the battery for long-term storage.
- The hour meter display can be easily checked from ground level.
- Shut-off valves have been fitted on the pre-filter piping line and fuel tank drain piping to make servicing easier and prevent pollution from leakage.
- Engine parts can be easily reached via the top and side panels.
- For extra accessibility and servicing convenience, all filters (engine oil filter, fuel pre-filters, fuel filters and pilot filter) are located in the pump compartment.
- An electric transfer pump for initial priming of fuel filters is featured as standard.
- Fine mesh on the side doors and on the cooler itself filters the intake air going to the cooler for better cooling performance and reduced maintenance.

#### **ADBLUE® TANK**

Connected to the ECU, sensors in the tank detect low levels of AdBlue® or any other system malfunction. Also equipped with an AdBlue® level indicator during refilling (LED light), to avoid over filling.

#### **CENTRALIZED GREASING POINTS**

To make maintenance easier, the greasing points have been centralized. An automatic lubrication system is available as an option.

### **TECHNICAL SPECIFICATIONS**

#### **ENGINE**

Designed to deliver superior performance and fuel efficiency, the Doosan DLo6P diesel engine fully meets the latest Stage V emission regulations. To optimize machine performance, the engine uses high-pressure fuel injectors, air-to-air inter-cooler and electronic engine controls. 4-Cycle Water-Cooled, Wastegate Turbocharged, Diesel Oxidation Catalyst (DOC), Selective Catalytic Reduction (SCR) and Diesel Particulate Filter (DPF).

#### Model

Doosan DLo6P

#### No. of cylinders

6

#### Rated power at 1800 rpm

SAE J1995 129 kW (173 hp) SAE J1349 121 kW (162 hp)

#### Max. torque at 1400 rpm

77 kgf⋅m

#### Idle (low - high)

800 [±10] - 1900 [±25] rpm

#### **Displacement**

5890 cm3

#### Bore × stroke

100 mm × 125 mm

#### **Starter**

24 V / 6 kW

#### **Batteries - Alternator**

2 × 12 V, 100 Ah – 24 V, 100 A

#### Air filter

Double element air cleaner and pre-filtered Cyclone Turbo dust separator

#### **HYDRAULIC SYSTEM**

The e-EPOS (Electronic Power Optimising System) is the brain of the excavator – minimising fuel consumption and optimizing the efficiency of the hydraulic system for all working conditions. To harmonize the operation of the engine and the hydraulics, the e-EPOS is connected to the engine's electronic control unit (ECU) via a data transfer link.

- The hydraulic system enables independent or combined operations
- 2 travel speeds offer either increased torque or high speed
- Cross-sensing pump system for fuel savings
- Auto-deceleration system
- 4 operating modes, 4 power modes
- Flow and pressure control of auxiliary hydraulic circuits from control panel
- Computer-aided pump flow control

#### Main pumps

2 × variable displacement tandem axial piston pumps Maximum flow at 1800 rpm 2 × 210.6 l/min

#### Pilot pump

Gear pump

Maximum flow at 1800 rpm 27 l/min

#### **Relief valve settings**

Implement350 kgf/cm²Travel370 kgf/cm²Swing300 kgf/cm²Pilot40 kgf/cm²

#### **UNDERCARRIAGE**

Extremely robust construction throughout - made of high-quality, durable materials, with all welded structures designed to limit stresses.

- Track rollers lubricated for life
- Idlers and sprockets fitted with floating seals
- Track shoes made of induction-hardened alloy with triple grouser
- Heat-treated connecting pins
- Hydraulic track adjuster with shock-absorbing tension mechanism

#### **Upper rollers (standard shoe)**

2

#### **Lower rollers**

DX245NHD-7: 7 / DX235LC-7: 8

#### Number of links & shoes per side

DX245NHD-7: 44 / DX235LC-7: 49

#### Link pitch

DX245NHD-7: 216 mm / DX235LC-7: 190 mm

#### **HYDRAULIC CYLINDERS**

High-strength steel piston rods and cylinder bodies. Shockabsorbing mechanism fitted in all cylinders for shock-free operation and extended piston life.

Cylinders	Quantity	Bore × rod diameter × stroke (mm)
Boom	2	125 × 85 × 1263
Arm	1	140 × 100 × 1450
Bucket	1	125 × 85 × 1060
Articulated boom	1	150 × 100 × 1300
Arm, articulated boom	1	140 × 100 × 1450

#### **CAB**

The air-conditioning and heating systems are integrated for optimal climate control. An automatically-controlled fan supplies the pressurized and filtered cab air, which is distributed throughout the cab from multiple vents.

The heated air suspension, adjustable operator's seat includes a seat belt. The operator can adjust the ergonomic seat and joystick console separately according to his preferences.

# A-weighted emission sound pressure level at the operator's position, LpAd (ISO 6396:2008)

Declared: 70 dB(A)
Measured: 69 dB(A)

#### A-weighted sound power level, LwAd (2000/14/EC)

Declared: 102 dB(A) Measured: 101 dB(A)

#### **SWING MECHANISM**

The swing mechanism uses an axial piston motor, driving a 2-stage planetary reduction gear bathed in oil for maximum torque.

- Swing bearing: single-row, shear type ball bearing with induction hardened internal gear
- Internal gear and pinion immersed in lubricant

#### **Maximum swing speed**

11.4 rpm

#### **Maximum swing torque**

9334 kgf·m

#### **FLUID CAPACITIES**

Fuel tank	339 l
Cooling system (radiator)	30.7 l
AdBlue® (DEF) tank	31.5 l
Hydraulic oil tank	200 l
Engine oil	27 l
Swing drive	5 l
Travel device	2 × 4 l

#### **DRIVE**

Each track is driven by an independent, high-torque axial piston motor through a planetary reduction gearbox. Two levers / foot pedals guarantee smooth travel with counter-rotation on demand. The track frame protects the travel motor, brake and planetary gears. The multi-disc track brakes are spring-applied and hydraulic released.

#### Travel speed (low - high)

3.0 - 5.3 km/h

#### **Maximum traction**

DX245NHD-7: 31.1 t / DX235LC-7: 29.2 t

#### Maximum gradeability

35° / 70%

- D: Suitable for materials with a density less than or equal to 1200 kg/m³

Based on ISO 10567 and SAE J296, arm length without quick-coupler. For reference only.

#### **DOOSAN BUCKETS**

4 More. More choice - More durable - More strength - More performance!

#### **General Construction Bucket**

The General purpose bucket is designed for digging and re-handling soft to medium materials (e.g. materials with low wear characteristics such as top-soil, loam, coal).

#### **Heavy Construction Bucket**

The Heavy duty bucket is designed for mass excavations in dense materials such as hard packed clay, shot limestone, limited rock content and gravel.

#### **Severe Mining Bucket**

The Severe duty bucket is designed for durability in digging compact materials like loose or blasted rock, hard packed clay and stone.

#### X-treme Mining Bucket

The X-treme duty bucket is designed as a long-life version of the Severe duty bucket for digging in the most abrasive materials.

- : Rating over front.
- : Rating over side or 360°.
- 1. Lifting capacities are in compliance with ISO 10567:2007(E).
- ${\bf 2.}$  The load point is at the end of the arm.
- 3. \* = The nominal loads are based on hydraulic capacity.
- 4. The nominal loads shown do not exceed 75% of tipping loads or 87% of hydraulic lifting capacity. 5. For lifting capacity with bucket, simply subtract the actual weight of the bucket from the values.
- 6. The configurations indicated do not necessarily reflect the standard equipment of the machine.

# STANDARD AND OPTIONAL EQUIPMENT

◆ Standard ○ Optional

#### **Engine**

- Doosan DLo6P, Stage V compliant, DOC, SCR and DPF post treatment, water-cooled diesel engine with Wastegate Turbocharger and air-to-air intercooler
- Auto-idle function
- Auto shut-off
- No EGR

#### **Hydraulic system**

- Boom and arm flow regeneration
- Fine swing mode, on or off from cab
- Swing anti-rebound valves
- Spare ports (valve)
- One-touch power boost function
- Double way line high flow + Breaker piping (PE<sub>3</sub>C)
- Smart Power Control (SPC)
- Cylinder cushioning & contamination seals
- Clamshell piping (diverter valve from bucket cylinder)
- Hydraulic piping low flow for rotating or tilting tool (joystick control)
- O Hydraulic piping for quick-coupler
- O Double pump flow
- O Floating boom

#### Cab & interior

- Pressurized sound-insulated and CabSus mounted cab
- Fully adjustable air suspension seat with heater
- Air conditioning with climate control
- Pull-up type front window sun roller blind and removable lower front window
- Sliding left window
- Intermittent upper and lower windshield parralel wiper
- Rain visor
- Rear window defroster switch
- Adjustable PPC wrist control levers for arm boom bucket and swing
- Joysticks & pedals provide proportional control of auxiliary hydraulic lines
- Pedal for auxiliary control 1 & 2 ways
- Jog shuttle switch
- DOOSAN Smart Touch 8" touch screen, all-in-one
- Attachment management system
- Engine speed (RPM) control dial
- Automatic travel speed
- 4 operating modes & 4 working modes
- Multiple storage compartments (e.g. document holder under seat)
- Storage area (tools etc.)
- Heating and cooling lunch box
- Flat spacious easy-to-clean floor
- Keyless start (Doosan Smart Key) & remote door lock/unlock
- Anti-theft protection
- 12 V spare power socket
- Serial communication port for laptop PC interface
- Remote radio ON/OFF switch
- Loudspeakers and connections for radio
- DAB Radio with Bluetooth streaming and handsfree call system
- Rear and side view camera
- o 360° all-around view camera (AVM)
- O 360° all-around view camera (AVM) + ultrasonic detection
- Fully adjustable air suspension seat (heating & cooling)

#### Safety

- Roll Over Protective Structure (ROPS)
- Boom and arm cylinder safety valves
- Overload warning device
- Large guard rails on upper structure and steps
- Rotating beacon
- Punched metal anti-slip plates
- Hydraulic safety lock lever
- Safety glass
- Hammer for emergency escape
- Right and left rear-view mirrors
- Lockable fuel cap and covers
- Battery cut-off switch
- Emergency engine stop switch and hydraulic pump control switch
- Engine restart prevention system
- Guard rails (ISO 2867:2011)
- Parking brake
- LED 9 work lights (2 boom lamp, 5 body lamps, 2 additional lamps on cab)
- LED work lights 4 additional lamps (2 in the front, 2 in the rear of the cab)
- Falling Objects Guard System top and front cab guards (ISO 10262 level II and SAE J1356)
- Front window upper and lower guards

#### Othe

- DX245NHD-7: 5700 mm boom 2400 mm arm 5000 kg counterweight
- DX235LC-7: 5700 mm boom 2900 mm arm 5000 kg counterweight
- DoosanCONNECT (telematic system)
- Auto shut-off fuel filler pump
- Double element air cleaner and pre-filtered Turbo dust separator
- Fuel pre-filter with water separator sensor
- Dust screen for radiator/oil cooler
- Self-diagnostic function
- Batteries (2 × 12 V, 150 Ah) alternator (24 V, 100 A)
- Hydrostatic drive with 2-speed power shift transmission
- Remote greasing for swing circle and work group pivot points
- O Arms: 2400 mm and 2900 mm
- O Boom: 5850 mm articulated boom
- O DOOSAN buckets: full range of GP, HD & rock buckets
- O DOOSAN breakers and DOOSAN quick-couplers
- Automatic lubrication system
- O Air compressor

#### Undercarriage DX245NHD-7

- HD undercarriage with 30 t class excavator components
- Narrow fixed undercarriage 2540 mm with 550 mm heavy duty shoes
- Full Track Guard for heavy duty application

#### Undercarriage DX235LC-7

- Standard fixed undercarriage 2990 mm with 600 mm triple grouser shoes
- o 700 mm triple grouser shoes
- O 800 mm triple grouser shoes
- 900 mm triple grouser shoes

# DISCOVER MORE: DX245NHD-7
