Check equipment data on your phone

1

I'm too busy to check the equipment on site. I want to **calculate the maintenance costs quickly and accurately!**

Try DoosanCONNECT !

DoosanCONNECT lets you check equipment data and maintenance costs easily and conveniently. In addition, the easy-to-use Dashboard provides an at-a-glance view of the information you need. DoosanCONNECT saves you hassle of searching the logbooks, making calls, or going to the site in person. You can also set a more efficient work schedule depending on the progress at the site.

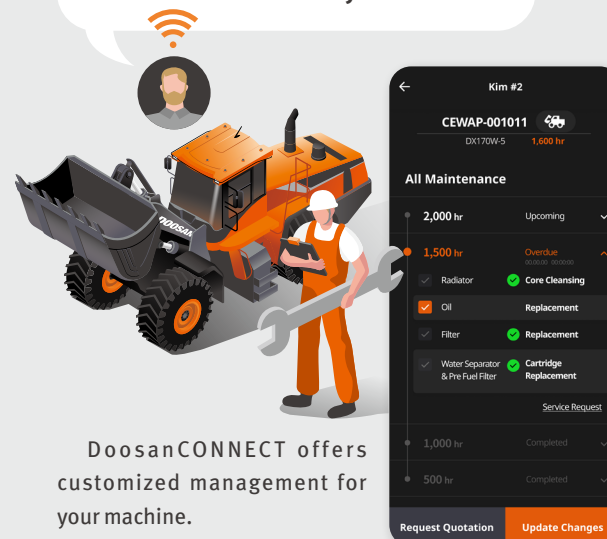

With DoosanCONNECT, equipment management is no longer a difficult task.

Customized service for you

2

Try DoosanCONNECT !

I've **used** it for **2,000 hours**. What should I do for **my machine**?

DoosanCONNECT offers customized management for your machine.

With this app, you will receive a checklist detailing the operating hours and a replacement notification for the consumable parts to be replaced. DoosanCONNECT tells you what you need and what you need to do. In addition, if your equipment is in an abnormal state, you will receive a failure notification. You can request service directly and check the progress right on the app.

With DoosanCONNECT, you can minimize the idle time of your equipment.

* System support such as service requests varies by country, and it may change depending on the local circumstances.

Order parts online!

3

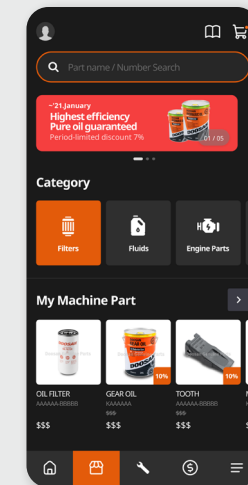

I want to know **the parts** that are **suitable** for **my machine**; can I order them **online**?

Try DoosanCONNECT !

DoosanCONNECT helps you quickly purchase genuine parts with proven quality. In the online parts shop, you can order the correct parts for your machine. You don't need to search a parts book and travel a far distance. In addition, an installation service can be provided upon request.

Enjoy a smart ordering experience now with DoosanCONNECT!

The online parts shop offers exclusive benefits for DoosanCONNECT customers.
